

Agera Energy LLC Environmental Disclosure Label

Massachusetts

This Fact sheet provides consumer information about the price, power sources and air emissions of electricity service. Electricity suppliers in Massachusetts must, by law, provide these fact sheets, or “Energy Source Disclosures” on a quarterly basis for the most recent one-year period, to educate consumers about their electricity.

Air Emissions	Lbs/MWh	% Of System Mix
Carbon Dioxide	938.75	100.00%
Carbon Monoxide	0.88	100.00%
Mercury	<0.01	100.00%
Nitrogen Oxides	1.42	100.00%
Particulates	2.14	100.00%
Fine Particulates	0.77	100.00%
Sulfur Dioxides	2.58	100.00%
Organic Compounds	0.07	100.00%

Power Sources

The actual electricity you use will be indistinguishable from the electricity used by your friends and neighbors. This is unavoidable because everyone is served through the same transmission and distribution system. The energy source disclosure cannot tell you about the electricity that you use in your home; instead, it tells you that your dollars are going to pay for particular power plants. Since it is impossible to track the flow of electricity on the grid, however, there is no way to identify the actual power plant that produced the electricity you consume. But it is possible to track the dollars you pay to particular power plants. Your electricity dollars will support electricity generation from various energy resources in the proportions listed on the power content label.

NOTES:

1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The information above is based on the most recently available data in the NEPOOL Generation Information System (“NEPOOL GIS”). The NEPOOL System mix of resources and Air Emissions information referenced above contains the estimated averages for October 2017 – September 2018, based on the last calendar year of available data recorded on the NEPOOL GIS website. The NEPOOL GIS website can be accessed at <http://www.nepoolgis.com/>.

2. You may call Agera Energy, LLC at 844.692.4372 or the Massachusetts Public Utilities Commission at 617-305-3500 for additional information.

 Agera Energy is licensed to sell Electricity and Natural Gas in the State of Massachusetts.

This information is effective:
April 2019

Service is supplied with power generated using the NEPOOL System mix of resources:	%
Natural Gas	35.58%
Nuclear	29.26%
Oil	6.86%
Hydroelectric/Hydropower	6.42%
Coal	6.96%
Trash-to-energy	2.32%
Biomass	1.96%
Wind	3.08%
Wood	1.45%
Municipal Solid Waste	0.64%
Diesel	1.02%
Solar Photovoltaic	2.77%
Landfill Gas	0.52%
Efficient Resource	0.20%
Fuel Cell	0.29%
Digester Gas	0.08%
Hydro-kinetic	<0.01%
Jet	0.03%
Geothermal	<0.01%
Solar Thermal	0.03%
Biogas	<0.01%
Total	100%
